

# Forster Rancher

January 2006

Next Board Meeting:

1-10-06 & 2-7-06

7:35 p.m.

Truman Benedict School

## Message from the Board President

WATER, WATER! The Board attended the city council meeting on December 6<sup>th</sup>, our normal meeting night. The Board of Directors was there on your behalf pleading our case to the City to correct the excessive water bill. I believe we had some success, but no final answers yet. There was an article in the Sun Post 12/13/05 that covered the meeting. I will keep you informed.

We need some help!

We need 1 person to join the Architectural Committee. It is a fun position! You review the new things being planned in the community before they even start!

AND

We have several people interested in putting a social event together for us, but we need a coordinator to pull it all together! That could be fun and rewarding.

If you can help out email me at [FRWayne@cox.net](mailto:FRWayne@cox.net) and I will contact you with all the details. If email is a problem call Alan at Webb (949-498-1129) and tell him to contact me with your information.

(Continued...)

## Message from the Board President

This year we WILL:

1. Develop a social plan to get all of us together
2. Re-draw our CC&R's, Guidelines, Rules and Regulations Etc.
3. Continue close monitoring of maintenance areas
4. Finalize plans for re-landscaping all the association maintained areas

PROGRESS!! - A Landscape Architect has been hired! The Pekarek Group will be working on the plans to renovate all the Association Maintenance areas. By this summer we will have plans to review!

What will it take to get you excited and involved? Let me know at my email [FRWayne@cox.net](mailto:FRWayne@cox.net) or send a note through Webb Management.

Thanks for all your support.  
**Wayne**

### **Board of Directors**

*President - Wayne Schramm*

*Vice President- John Marron*

*Secretary - Jolinda Marquez*

*Treasurer - Bill Coughlin*

Rimrock - Dennis Voegel

Rimrock - Wayne Schramm

Tocayo Canyon - Robert Ashworth

Tocayo Ridge - Chet Frohlich

Equestrian - John Lamb

Naples - Chris Landay

Alisal - Dave Poulos

## Rodent Problems?

If you have had a problem with rats or mice, take a look around for spaces where they may enter your home. The small hole around the air conditioner wiring is a common entry point for rodents. (Mice can fit in a hole the size of a quarter.) Stuff steel wool into any areas that are possible entry points. Although no one seems real sure of the reason, rodents will generally not pass through steel wool. For additional information, please call **Vector Control (714) 971-2421**. Vector Control is a free service and it is recommended that you give them a call.

## **Broken Sprinklers?**

Call Webb Management , or Bemus Landscaping immediately to report any broken irrigation.

## January Meeting Date
